ACADEMIC EQUIVALENCY EVALUATION

Date: April 24, 2012

Name: **HASTI, Rajasekhar**
Country: India

Degree: Bachelor of Technology
Institution: Jawaharlal Nehru Technological University
Dates: 1999-2003
Date of Completion: April, 2003

Educational Equivalent in the United States:

BACHELOR OF SCIENCE DEGREE IN COMPUTER ENGINEERING

The following is an analysis and advisory evaluation of the academic credentials of Mr. Rajasekhar Hasti. As discussed herein, Mr. Hasti completed a four-year bachelor's-level program in Computer Science and Information Technology at Jawaharlal Nehru Technological University, in India. Based on the foregoing academic credentials, I find that Mr. Hasti attained the foreign equivalent of a four-year Bachelor of Science Degree in Computer Engineering from an accredited US college or university.

In 1999, Mr. Hasti Commenced post-secondary studies in a four-year bachelor's-level program in Computer Science and Information Technology at Jawaharlal Nehru Technological University, in India. The University is an accredited institution of higher education in India. Admission to the bachelors' degree programs offered by Jawaharlal Nehru Technological University is based on the completion of secondary-level studies and competitive entrance examinations.

Mr. Hasti completed the general studies and specialized studies which lead to a four-year Bachelor of Technology Degree. The general studies included entry-level courses which are a requisite component of a bachelor's degree from an institution of higher education in the United States. Based on the subject matter and credit hours of these courses, most such courses would qualify as equivalent to courses in US colleges and universities.

Additionally from 1999 through 2003, Mr. Hasti completed advanced bachelor's-level coursework in Computer Science and Information Technology. The curriculum of the program in Computer Science and Information Technology at the University typically includes classes and examinations in Data Structures and Programming Methodology, Discrete Structures, Computer Organization, Computer Architecture, Database Systems, Systems Programming, Operating Systems, Microprocessors, Systems Software, Automata Theory, and related subjects. Following his completion of the required classes and examinations, in April, 2003, Mr. Hasti was awarded a Diploma for a four-year Bachelor of Technology Degree by Jawaharlal Nehru Technological University. The nature of the courses and the credit hours involved indicate that he attained the foreign equivalent of a four-year Bachelor of Science Degree in Computer Engineering from an accredited US college or university.

Accordingly, based on the reputation of the academic programs offered by Jawaharlal Nehru Technological University, the number of years of coursework, the nature of the coursework, the grades attained in the courses, and the hours of academic coursework, it is the judgment of The Trustforte Corporation that Mr. Rajasekhar Hasti attained the foreign equivalent of a four-year Bachelor of Science Degree in Computer Engineering from an accredited college or university in the United States.

This evaluation is based on copies of the original documents provided by Mr. Hasti and represented to be authentic and true copies of the original documents. We have no reason to doubt the authenticity and accuracy of these documents. This is a true and correct evaluation to the best of our knowledge and belief, pursuant to requirements of the United States Citizenship and Immigration Services of the United States Department of Homeland Security ("USCIS"). The Trustforte Corporation is a credentials evaluation service and academic advisory firm specializing in the evaluation of foreign educational credentials. Past academic equivalency evaluations of The Trustforte Corporation have been accepted regularly by the USCIS and various US educational institutions.
